GENERAL INDEX

HILL DIRECTORY COMPANY, publishers of Southeastern Directories (publishers of the Smithfield and Selma Directory since 1957), present to subscribers and the general public, this, the 1967 edition of the Smithfield and Selma City Directory, which also includes Pine Acres, Sandy Run Section, Sunrise Acres, West Smithfield and the Rural Route Residents. (In all, the Hill Directory Company and its affiliated companies publish more than 1,400 city, county, state and national Directories).

Confidence in the growth of Smithfield and Selma's industry, population and wealth, and in the advancement of their civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Smithfield and Selma to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and the Smithfield and Selma Directory will fulfill its mission as a source of authentic information pertaining to the communities.

Four Major Departments

The four major departments are arranged in the following order:—

I. THE BUYERS' GUIDE constitutes the first major department of the Directory, printed on yellow paper. In the first section of this department, grouped under appropriate headings, are included the advertisements and business cards of firms and individuals desiring to make a complete presentation of their products or services. Following this is the Classified Business section, which embraces a list of the names and addresses of all business and professional concerns of the communities, arranged in alphabetical order under appropriate headings—a catalog of all the activities of the communities. The Buyers' Guide represents reference advertising at its best, and merits the attention of all buyers and sellers seeking sources of supply or markets for goods. In busy and diversified communities like Smithfield and Selma, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns, is the second major department, printed on white paper. This is the only record

812221

in existence that aims to show the name, marital status, occupation and address of each adult resident of Smithfield and Selma, and the name, official personnel, nature and address of each firm and corporation in the communities.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, is the third major department, printed on green paper. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of owner occupied homes, the listing of telephone numbers and Zip Code numbers.

IV. THE NUMERICAL TELEPHONE DIRECTORY is the fourth major department, printed on blue paper.

Municipal Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Smithfield, Selma and vicinity.

The Directory Library

Through the courtesy of the publishers of the Smithfield and Selma City Directory, a Directory Library is maintained in the offices of the Smithfield and Selma Chambers of Commerce, for free reference by the general public. This is one of more than 1,000 Directory Libraries installed in cities and towns throughout the U. S., Canada and Puerto Rico by members of the Association of North American Directory Publishers.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

General Review

Oldest, largest and busiest of Johnston's ten towns, Smithfield is the county seat with an estimate of 7,000 population. In 1890 it was only 545. Once it was a river town, and the Neuse still flows slowly along the west edge of its business section, but its commercial importance now is the potential it has as a source of industrial water. Smithfield's water facilities are adequate for an anticipated growth of 20 years.

Downtown Smithfield spreads east of the courthouse lawn, and is a mixture of retail stores, farm equipment places and tobacco warehouses. Tobacco is still a big thing in the life of the average Smithfield citizen. When the nine auction warehouses sell some 30,000,000 pounds, they turn loose \$12 to \$15 million, and a good part of it goes to Smithfield—either directly into the pockets of absentee farmers living in town, or indirectly via farm trade.

Johnston County Courthouse
Located on Market Street in Smithfield

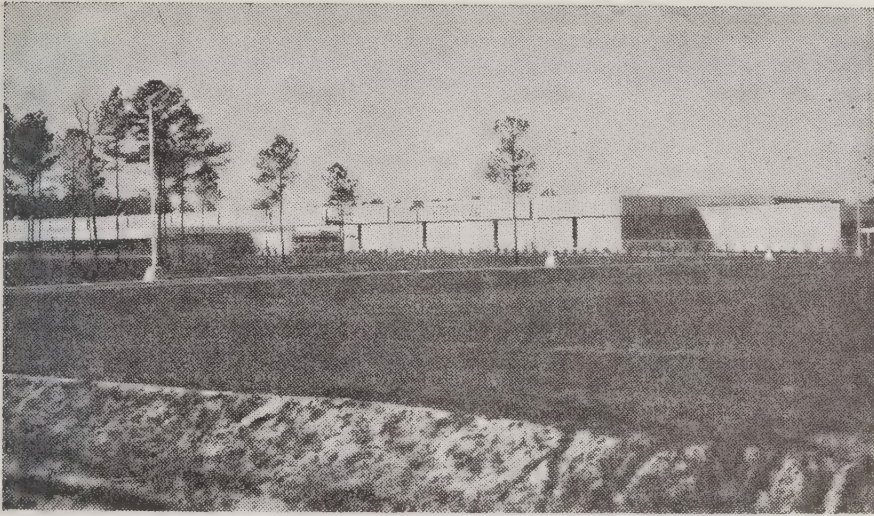

Tobacco is, however, an old story to Smithfield. In 1770 the legislature established a public "Inspection of Tobacco" in Johnston at the ferry on the lands of John Smith. Here tobacco was inspected, and put in stamped hogsheads. It was floated down to New Bern in flatboats. Consequently, Smithfield is the oldest tobacco market in North Carolina, still in business, allowing, of course, for interims of inactivity.

The modern auction market opened in 1898 via a warehouse operated by Skinner and Barham.

The redrying houses, also operating seasonally, provide one of the largest sources of employment in the county, aside from agricultural pursuits.

The cotton market, though overshadowed, is one of the largest in the state, with three gins and facilities for storing 18,000 bales. There is a large livestock market.

But recent industrial additions such as Burlington Mills, the Jerold Corporation, Fieldcrest Mills, Carolina Packers, Sylvania Electric Products, Inc. and others are broadening the base of the town's economy, as well as providing a better balance between agricultural and industrial pursuits.

Conscious effort by the citizens to accomplish just such a broadening has been stepped up by a rejuvenated Chamber of Commerce and formation of the Smithfield Industries, Inc., to provide quarters (if needed) for interested industries.

Smithfield's business and civic leaders, as the result of a tour of several states viewing community improvement ideas, with full cooperation on the community level, unfolded "The Smithfield Plan". Through coordination of community and civic efforts many changes have taken place. These include sidewalk canopies, remodeled businesses, color styling, off-street parking, new store fronts, landscaping—more than 25 projects completed and others in the planning stage. As the result, Smithfield was chosen and judged one of the top 10

towns in the nation in the 1962-1964 Community Improvement Program contest co-sponsored by the General Federation of Women's Clubs and the Sears Foundation. Smithfield was declared winner of the North Carolina division of the contest from which \$300 was received as the award. \$1,000 was received for being one of the national winners, giving a total of \$1,300 to be used further on community improvement. Smithfield now has a wide-awake, on-the-move look, and has established itself as a most progressive community.

In all of its long career, and through every turn in business, the town has never suffered a bank failure. It is one of the financial centers of North Carolina, through the presence of main offices of the First-Citizens Bank & Trust Company.

The town was founded on land which John Smith, the first settler, donated. He had moved in from Virginia and obtained a license to operate a tavern at the site in 1765. Later he moved to Tennessee, where he died.

Smithfield was chartered in 1777, and must have had some facilities and prestige during the Revolution. The General Assembly was to have convened in New Bern in April 1779, but a smallpox epidemic forced them to meet elsewhere, and they chose Smithfield.

It was at this session that the representatives made the first attempt to halt the nomadic wandering which had the assembly meeting first in one place and then another. A resolution was introduced naming a commission to "view and fix upon some place in each of the counties of Johnston, Wake and Chatham for holding the General Assembly".

Nothing came of this, and the resolution may not even have passed, for the Senate Journal of that session is lost.

However, when a capital site finally was picked, Smithfield was in the running. We frequently hear the town lost by only one vote, but the statement is always prefixed by the warning that it is only a "tradition".

Also, according to tradition, a Smithfield man cast the deciding vote against location of the Southern Railway, fearing that the smoke and noise would be injurious to the quiet of the village. It later obtained the Atlantic Coastline Railroad.

Beyond the commercial center lie the residential sections, mostly composed of comfortable but moderate homes.

They are built along old tree-lined streets, and even though close to town have an air of leisure and well-being. Smithfield, for all its concern over the replacement of farm labor and the need for new enterprises, is a town of quiet poise. It has over its 200 years, gradually equipped itself adequately.

As the result of combined community efforts, necessary funds for a new Smithfield-Johnston County Library were raised. Now a new \$500,000 library is in operation.

The relatively new hospital has already been enlarged and renovated, with all modern convenience being included in addition to increasing the number of beds to 200.

The civic life is well balanced by organizations—civic, fraternal, cultural, literary, dramatic, professional. It has a city-county library and also is headquarters for a seven branch county library system with bookmobile. A Historical Society is busy compiling a county history. There are 16 churches and 4 recreation parks, operated by a full-time city recreation department.

Smithfield's growth in size and responsibility has not robbed it of a social life which is as friendly and neighborly as that of the smallest rural community in the county.

Smithfield has a tax rate of \$1.10; a valuation of \$15,665,809; and an indebtedness of \$745,000.

Community Attitude

Business and professional leaders and the people of Selma and Johnston County are vitally interested in industrial development toward the welfare of the area. Facing the importance of further industrialization, leading citizens of Selma and the area formed the Selma-Smithfield Industrial Development Corporation.

City, County and State governments have demonstrated a wholesome and cooperative attitude toward old and new industry and business organizations. New industries that have come to the town and area in the past few years have found splendid community attitude and able, industrious labor. The community has several desirable sites available for industry and will meet reasonable requirements to serve new industry and provide new floor space on a sound business basis.

Within a radius of 20 air miles there is a labor pool in excess of 3,600. Approximately 1,000 high school graduates enter this labor force annually. Selma is served by the Atlantic

Tobacco ready for harvest.

Coast Line Railroad and Southern Railway and by 6 Trucking Lines. Raleigh-Durham Airport, one of the South's leading, is only 40 miles away. Valuations and tax rates are reasonable and city utilities are available.

The Chamber of Commerce, with the cooperation of town government and civic clubs, has started a concerted effort to get downtown business organizations to improve their properties, both inside and out. This is, of course, a long range program; however, it is being met with enthusiasm.

Selma Chamber of Commerce offers its services without obligation. All inquiries are handled in strict confidence. For further information please write the Selma Chamber of Commerce, Box 584, Selma, North Carolina, or telephone 965-5356.

Features and Departments of a City Directory

Your new, improved City Directory is the most complete and comprehensive catalog ever published of the inhabitants, business concerns and institutions of your city. It is much more than just an alphabetical list of names and addresses.

Your City Directory Contains:

1 An *Alphabetical* list of names and addresses of every resident, business concern and institution, plus wife's name and if a widow the deceased husband's initial, and the occupations of all. Principal officers or owners and a description of businesses are included as well.

2 A *Householders' Directory* including a Street and Avenue Guide. This section lists every street and where intersecting streets appear. It lists numerically every location on each street, naming the householder or business at each number and whether the person is a homeowner or renter and if he has a telephone. Similar information is provided on office and public buildings and their occupants.

3 A *Classified Business Directory*—listing every business, classified as to type, and showing names and addresses. It also lists every profession, club, society and association, hospital and cemetery, labor organization, library, park and playground and school.

4 A "*Yellow Section*" or *Buyers' Guide*, where the advertiser may explain in greater detail the services or products he has to offer.

5 A *Statistical and Historical Story* of your city; plus miscellaneous other information.

**This publication

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.
5. To decline any advertisement which has a

tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.
7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.
8. To co-operate with approved organization and individuals engaged in creative advertising work.
9. To avoid unfair competition.
10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

★ *Out of Business* ★

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. *Insist on being well represented in its pages.*

HILL'S SMITHFIELD and SELMA

Street and Avenue Guide Including Telephone
Numbers, Home Owner Symbols and Zip Codes

1967

Including Pine Acres, Sandy Run Section, Sunrise
Acres and West Smithfield

Copyright, 1967, by Hill Directory Company

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass are shown opposite names.

Zip Code numbers are shown immediately following each street description. If a street runs through more than one zone, the new Zip Code number is shown immediately preceding the lowest street number in the new zone.

Figures in parenthesis denote old numbers.

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance).

(This section includes some listings reading "No Return." In each case the Publisher tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible).

Out of Sight--Out of Mind Out of Business

THE IMPORTANCE OF KEEPING FIRM AND PRODUCT NAMES IN THE PUBLIC EYE IS RECOGNIZED BY ALL BUSINESS MEN. IT IS ASTONISHING TO SEE HOW A FIRM OR PRODUCT, HOWEVER MERITORIOUS, WILL SLIP INTO THE LIMBO OF THE FORGOTTEN IF NOT PERSISTENTLY ADVERTISED.

THE CITY DIRECTORY IS THE NATURAL MEDIUM FOR KEEPING A BUSINESS OR PRODUCT NAME IN THE SPOTLIGHT. INSIST ON BEING WELL REPRESENTED IN ITS PAGES.

AIDS TO PROPER MAILING

Do not use "Township" as part of your address.

Write name and address plainly and completely.

Place name and address of sender on all matter.

Prepay postage fully on all letters and parcels.

Always address mail for city delivery to street and number and request correspondents to do likewise.

Use designation North or South, East or West when it is a proper part of the address.

Insure valuable parcels except those containing small articles of considerable value which should be registered.

Wrap parcel post carefully in heavy paper and tie knots securely.

You will often gain a day's time in delivery by depositing mail as soon as it is ready.

Use Postal Zone numbers on mail addressed to cities where Zone Numbers are required.
